

# JOSH MANSFIELD

Bristol/London | [joshimansfield@icloud.com](mailto:joshimansfield@icloud.com) | [joshmansfielddevelopment.com](http://joshmansfielddevelopment.com)

## ABOUT ME

I am a developer and designer with over five years of experience creating user-focused solutions and providing technical support.

My work blends modern design with a strong understanding of user needs, allowing me to build seamless and engaging experiences across platforms.

### Apps include:

[Cumulus](#), [TailTag](#), [Pulse](#), [PinBoard](#), [Uplink](#), [Latch](#), [Motivate](#), [Moments](#), [FlipCards](#)

I am currently working as a developer at **Pimento**.

More projects available at [Joshmansfielddevelopment.com](http://Joshmansfielddevelopment.com)

## EXPERIENCE

### Developer

#### **Pimento | August 2025 – Current | [Getpimento.com](http://Getpimento.com)**

Sole Frontend & Mobile Engineer, leading the rebuild of a legacy warehouse platform and development of a new client-facing iOS and Android application.

Modernized the React frontend using ShadCN and a shared component system, improving consistency, maintainability and development speed.

Built operational dispatch workflows integrating barcode scanners, weighing scales and label printers via Web HID/Web Serial across browser and Electron environments.

Developed the mobile application from the ground up using React Native (Expo), delivering production apps for iOS and Android.

Own the frontend/mobile product lifecycle from UX design and prototyping through implementation, deployment and production iteration.

Manage mobile releases through App Store Connect and Google Play Console.

## LANGUAGES

- TypeScript
- JavaScript
- Swift
- Go
- Python
- SQL
- C
- C++

## FRONTEND & MOBILE

- React
- React Native
- Expo
- SwiftUI
- ShadCN
- Tailwind
- HTML / CSS
- Responsive Design
- MVVM

## BACKEND & API

- PostgreSQL
- REST APIs
- gRPC

## Full Stack Engineer: Founding Development Team

**HI Company | May 2026 – Sept 2026 | [Thehicompany.co.uk](https://Thehicompany.co.uk)**

Part of a three-person team that designed and delivered a full teaching and assessment platform from concept to working product in approximately three months.

Designed and deployed AWS infrastructure from scratch using EKS, RDS, S3, SES, ECR, CloudFormation and Kubernetes, including networking, secrets management and IAM.

Built containerized Go microservices with PostgreSQL, gRPC/Protocol Buffers and REST APIs, alongside CI/CD pipelines using Docker and GitHub Actions.

Developed React/TypeScript dashboards for four user roles, implementing OTP/JWT authentication, RBAC, school/class management and content creation workflows.

Built end-to-end assessment functionality supporting text, MCQ and video submissions, progress tracking, marking, feedback and secure S3 media storage.

Worked directly with teachers and sixth-form leadership in weekly client meetings, translating feedback into technical decisions and rapid product iterations.

Managed DNS and domain configuration for application hosting and Amazon SES.

## iOS App Development

**Self-Employed | Jan 2024 – Current | [Appsbyjosh.com](https://Appsbyjosh.com)**

Designing, developing, and publishing iOS apps using Swift. Managing full-stack development, testing, and deployment via the App Store and TestFlight.

Seven released apps and two in Beta ranging from live activity note taking apps, planespotter apps, health apps and mobile diagnostic apps

Apps are available through [Appsbyjosh.com](https://Appsbyjosh.com)

## Golang Internship

**University of the West of England | July 2025 – Sept 2025**

Mentoring students in Golang and software development, creating teaching materials, and developing tools for the Principles of Programming module.

- Protocol Buffers
- JWT Auth
- RBAC

## CLOUD & DEVOPS

- AWS
- Amazon EKS
- Amazon EC2
- Amazon RDS
- Amazon S3
- Amazon SES
- Amazon ECR
- Kubernetes
- Docker
- CloudFormation
- GitHub actions
- CI/CD
- IAM
- DNS

## HARDWARE & DESKTOP

- Electron
- Web HID
- Web Serial

## DESIGN

- UI / UX Design
- Photoshop
- Premier Pro

## EDUCATION

**UWE Bristol**

BSc (Hons.) Computer Science

Sept 2023 – Sept 2027
